IDRACLEAN L240/5

DEGREASER

APPLICATION

IDRACLEAN L240/5 is an alkaline degreaser suitable for all surfaces.

USE

Dilute depending on the intensity of the dirt up to 75% with water.

IDRACLEAN L240/5 should be applied with the aid of a single brush or floor washer and then rinsing the surface with plenty of clean water.

It is recommended not to use in the presence of metallized waxes as given the degreasing power of the product this would be completely removed;

it is also recommended not to mix this product with anyone else, as it is calibrated with highly alkaline mixtures: improper use with acidic products could give rise to dangerous decomposition reactions with the emission of toxic-corrosive vapors.

PRODUCT CHARACTERISTICS

APPEARANCE	: Straw liquid
SOLID CONTENT	: ca.4%
SPECIFIC GRAVITY	: 1,00 g/cm ³
PHASE	: Aqueous
STORAGE	: 12 months. 5 - 35°C. Protect against frost
NOTE	: Shake well before use
