IDRAREP L56/8

Water-repellent oil for solvent-based stones

APPLICATION

IDRAREP L56/8 is a mixture of fluorocarbon resins in C4 chemistry and silane/siloxane in solvents.

It is used as a water-repellent oil in the treatment of stones without altering the aesthetics and breathability of the materials.

The product, ready to use, should be applied to the perfectly clean and dry surface in a regular and abundant way, by spray or buffer.

The product should be applied depending on the absorption power of the support, in one or two coats, taking care to completely dry the material between one application and another.

PRODUCT CHARACTERISTICS

APPEARANCE	: Transparent liquid
TYPE	: Fluorocarbon resin and silane/siloxane mixture
SOLID CONTENT	: Ca. 3%
SPECIFIC GRAVITY	: 0.89 g/cm ³
PHASE	: Organic solvent
pH	: N.A.
STORAGE	: 12 months. 5-35°C. Protect against frost
NOTE	: shake well before use
