IDRASOAP 6523

*SOAP PASTE FOR THE PROTECTION AND MAINTENANCE OF POLISHED
LIME SURFACES SUCH AS MARMORINO AND VENETIAN STUCCO*

APPLICATION

IDRASOAP 6523 is a soap paste for the protection and maintenance of polished lime surfaces such as marmorino and Venetian stucco. The product is particularly suitable for the protection of lime-treated surfaces, in fact thanks to the reaction between the particular soaps of plant origin contained in the preparation, there is the formation of insoluble substances that harden the surface protecting it without altering the appearance and breathability.

USE

IDRASOAP 6523 can be used in one of the following ways:

- as it is with plastic spatula application by spreading a light layer of product without overloading the surface of the material too much otherwise there is a risk of altering the color especially in light tones.
- in aqueous solution, in this case the product must be diluted in warm water and diluted with warm water in the ratio 25 parts of product and 75 parts of water and applied to sponge evenly distributing the mixture over the entire surface.

In both cases, once drying, remove the excess product with a soft cloth thus bringing out the shine of the finish.

PRODUCT CHARACTERISTICS

APPEARANCE	: Hazelnut paste
ACTIVE SUBSTANCE	: ca 38%
pH	: 9.0 - 11.0 (1:3 dilution in water)
STORAGE	: 12 months. 5 - 35°C. Protect against frost
