IDRATOUCH 2551

TOUCH MODIFIER FOR WATER-FREE SYSTEMS

APPLICATION

IDRATOUCH 2551 is a high concentration preparation to be used as a final touch or as an additive in water fixatives to improve the smoothness of the finishing film and give a particularly warm hand.

IDRATOUCH 2551 can be used alone or in combination with other silicones of ionic and non-ionic character, however, it is advisable to test its compatibility before use.
